# Edward Hain Community Hospital review public meeting

22 October 2020  
5.30pm to 7pm

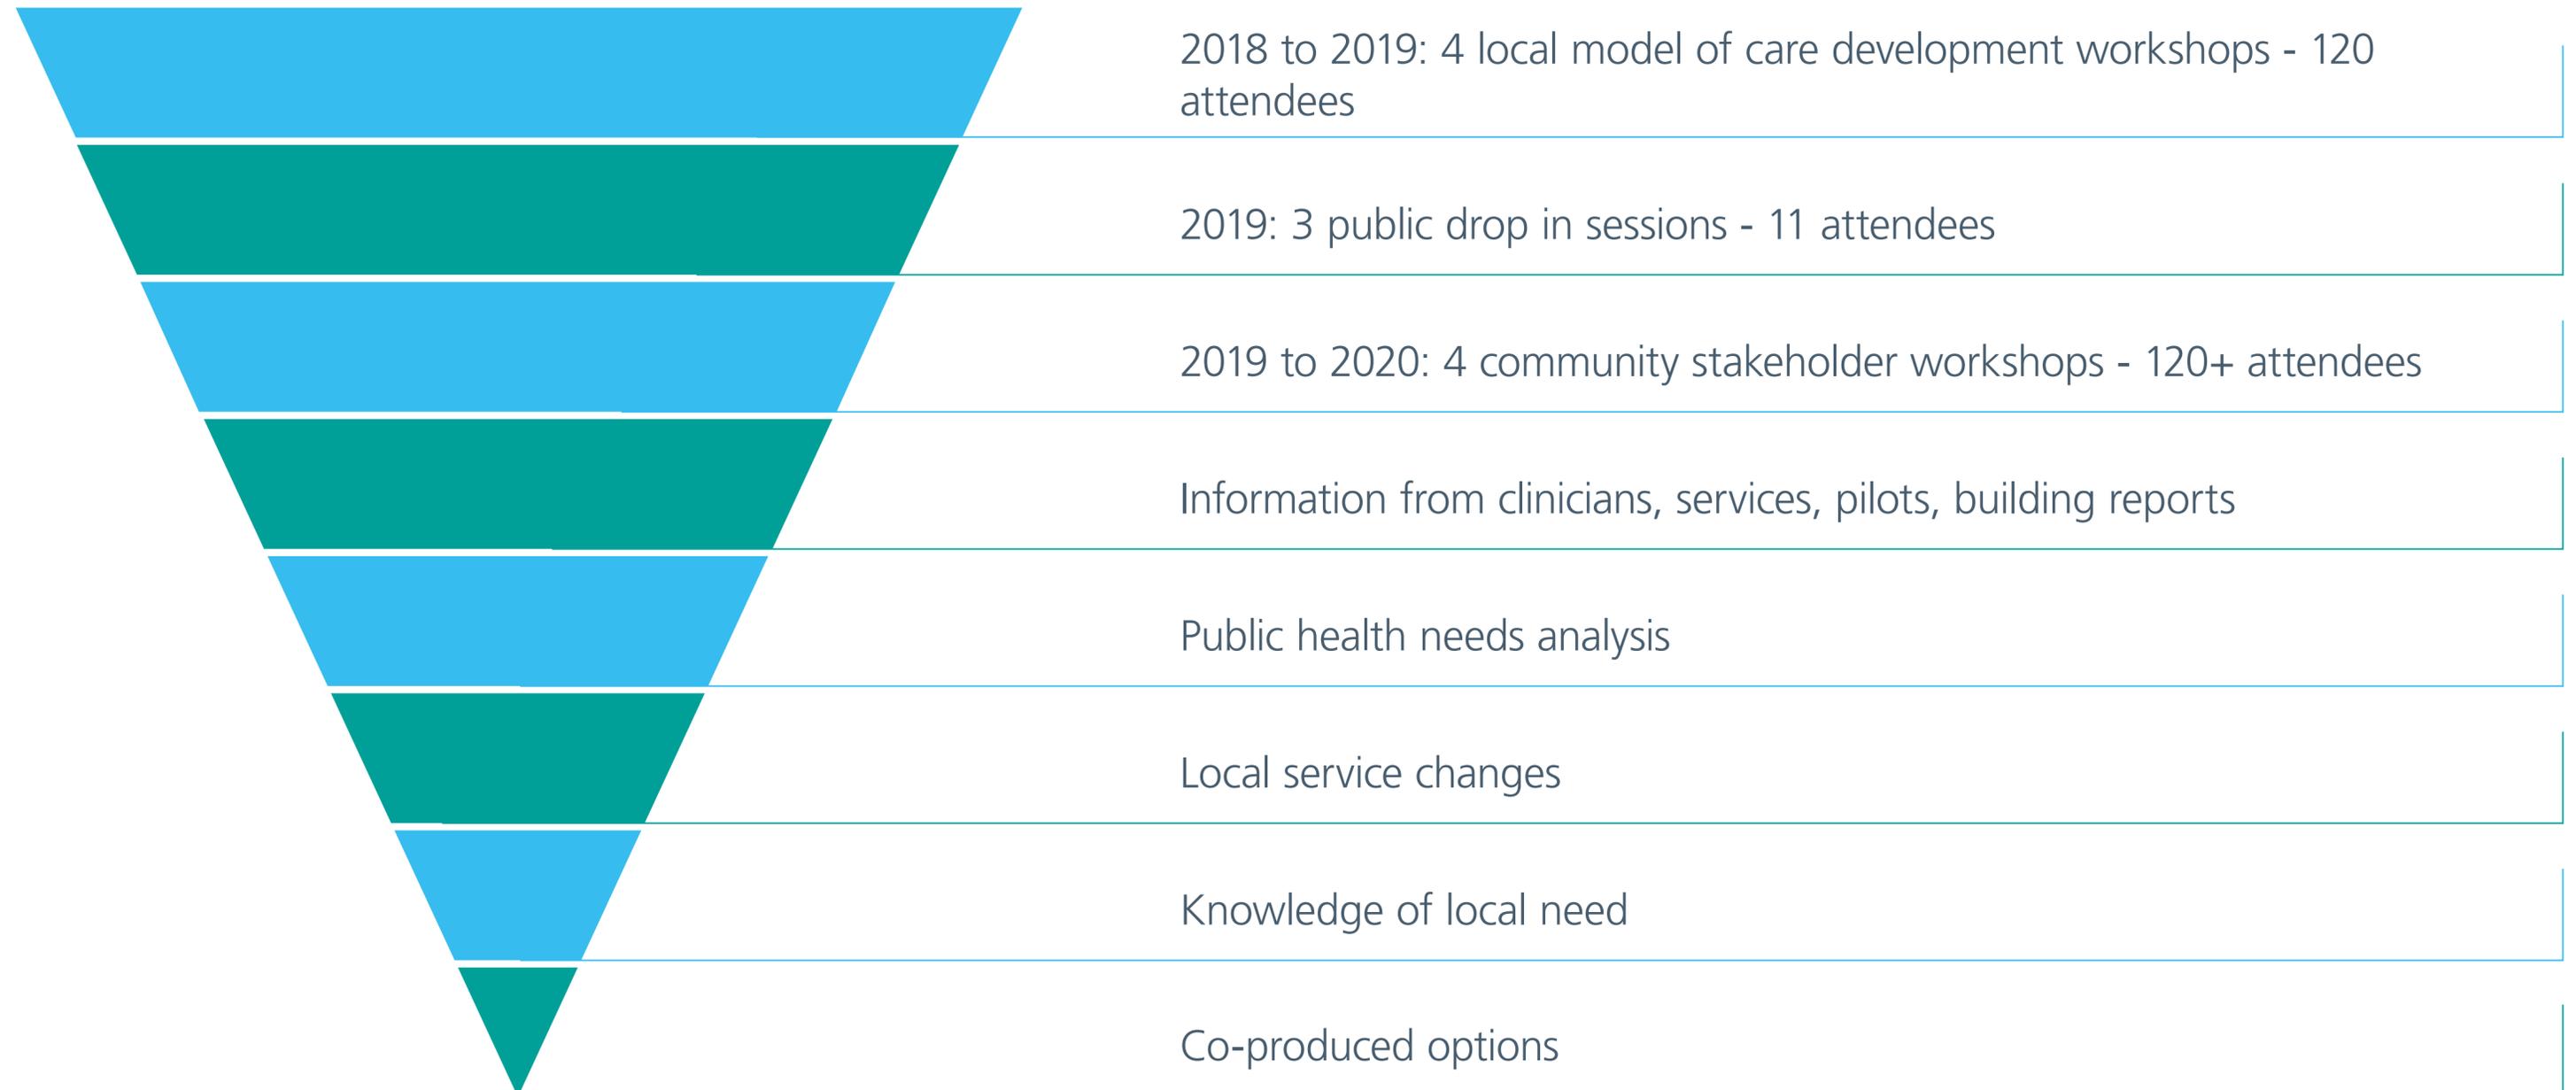

# Aims for this meeting

- To inform you of the work done to date that determines that Edward Hain community hospital is not viable for the provision of healthcare.
- To inform you of changes that have happened recently in Penwith.
- Tell you about next steps and how else you can be involved
- To seek feedback on the questions:

- 1** If Edward Hain community hospital was not available, how would this affect you, your friends, family and community, and what might help with any concerns you have?
- 2** If we moved the podiatry and mental health clinics from Edward Hain community hospital to another location in St Ives, how would this affect you, and what might help with any concerns you have?
- 3** Do you have any ideas about how we can continue to improve health and care services or access to these in Penwith and St Ives?

# What have we done?

## Listening to views and ideas and looking at data and information

# What have we done?

## Service changes: closer to home/at home

### West Cornwall Hospital

Centre of healthcare excellence for the west

- More ward rehabilitation

### St Julia's Hospice, Hayle

- 2 additional beds
- Hayle neighbourhood hub

### Home based reablement

More community support workers

- More people seen at home
- Social prescribing link worker at each GP practice

### Geriatrician support in primary care

- Those at risk seen quicker
- Hospital attendances and admissions avoided

# New ways of working since COVID-19

COVID-19 has required unprecedented levels of flexibility and initiative: cooperation across the system has enabled quick decision making and new ways of working.

## **Community assessment and treatment units (CATUs)**

West Cornwall and Camborne Redruth hospitals—to rapidly diagnose, assess and treat people to help keep them safe at home rather than needing a hospital bed.

## **Community bed bureaus**

Multi-agency staff have an overview of all beds in residential, nursing care, extra care housing and community hospitals to match the person's needs to the right type of bedded care.

## **Community co-ordination centres (CCCs)**

Health and care staff decide together which community team can best to respond to a person's needs. This ensures people are seen promptly by the right person, and that those with the greatest needs are prioritised for care and support.

## **Discharge to assess beds**

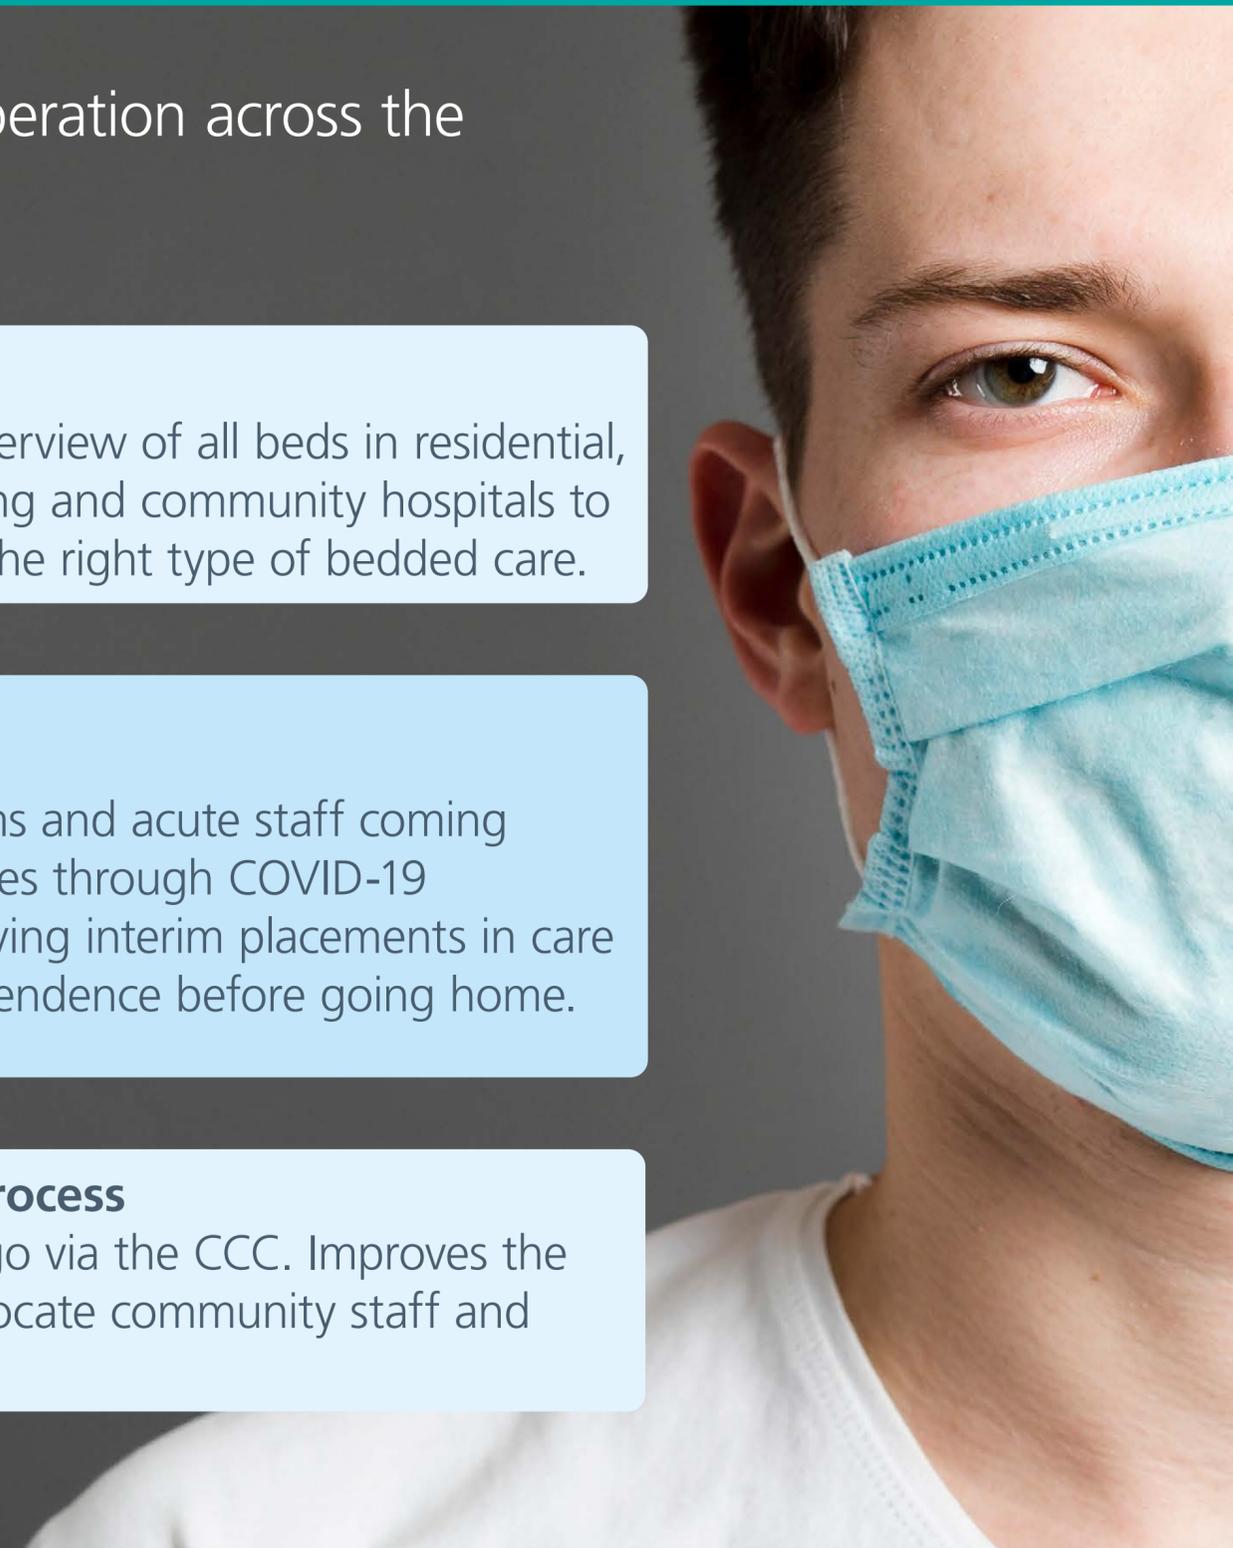

Primary care, community teams and acute staff coming together to support care homes through COVID-19 outbreaks. More people receiving interim placements in care homes to increase their independence before going home.

## **Remote access to care**

GP practices use new ways to deliver care remotely such as video consultations and telephone support.

## **Single electronic referral process**

Developed for all referrals to go via the CCC. Improves the way that we plan, use and allocate community staff and resources.

# How we've got here - ideas and options

Community stakeholder group agrees process and membership

## Options development:

identify long list of ideas/options  
discuss long list  
agree which ones to short list to evaluate

## Long list of options considered:

- alternative care-extra care housing
- care home
- staff base/administration building
- children services and family hub
- expand the site for more beds
- provide day services and activities
- re-open 12 inpatient beds and continue providing community clinics in a fire safety and refurbished environment

# Evaluating the short listed option

Evaluation of option by 13 evaluators (including 2 community members) against 21 criteria. Evaluation process agreed by community stakeholders:

## **The short listed option**

To re-open 12 inpatient beds and continue providing community clinics in a fire safety and refurbished environment

Access

Deliverability

Environment

Finance

Impact

Quality

Workforce

# The evaluation outcome

Minimum scores for safety, financial affordability and financial sustainability not met. Rest of the scores low.

The evaluation outcome concludes that Edward Hain Community Hospital is not viable for the provision of healthcare

We now want to hear your views on what this outcome means for you. More information can be found on NHS Kernow's website. Type in [bit.ly/30oWXaA](https://bit.ly/30oWXaA)

# Have your say - question 1

**If Edward Hain Community Hospital was not available, how would this affect you, your friends, family and community, and what might help with any concerns you have?**

# Have your say - question 2

**If we moved the podiatry and mental health clinics from Edward Hain Community Hospital to another location in St Ives, how would this affect you, and what might help with any concerns you have?**

# Have your say - question 3

**Do you have any ideas about how we can continue to improve health and care services or access to these in Penwith and St Ives?**

# What happens next?

1

We will collate and review all the feedback we receive from this meeting, emails, letters, surveys and feedback forms.

2

On 25 November we will brief the Health and Adult Social Care and Overview and Scrutiny Committee on the work to date and the feedback we receive.

3

NHS Kernow Governing Body will receive the proposal that Edward Hain is no longer fit for healthcare provision, where the clinics could be re-located and all the feedback from this process. A decision will be made on 1 December 2020.

# Thank you

Thank you for all your time and input to this process. All your views and feedback from today will be captured.

Please feel free to contact us with your views by midnight on Wednesday 4 November. You can do this by:
